

‘Diagnosis can be a lonely and daunting place. WarrPAC have been a point of contact to steer us in the right direction. A friendly bunch, who really understand what you’re going through.’

‘Warrington Parents & Carers gave me a voice for my child. They care and supported me when I needed help.

They are a brilliant team who we couldn’t do without.’

Hello!

...and don't just take our word for it

Warrington Parents and Carers is a voluntary group of like-minded, enthusiastic, passionate and experienced parents, carers and grandparents. Not only are we fun to be around we also have one thing in common, we all have children and young people under the age of 25 with disabilities and additional needs.

Whether you're at the start of your journey or several years down the line, we're here for you and want to be able to support you.

We value your opinion and experiences and ensure that your views are taken into account by service providers. Together we have the ability to influence decision makers and shape the services that affect YOUR life in YOUR town.

We need you to share with us your experiences and challenges that families with disabilities and additional needs face every day. We offer a wide range of opportunities to come together to learn from and support each other. From coffee mornings to training workshops, social media and newsletters, there's something for everyone. We have fun, we talk, we care, we share but most importantly we believe that your voice matters.

**Let us be part of your journey, good or bad.
We WILL listen, support and give information.**

Over the past few years SENDIASS and WarrPAC have worked really well together. It is a two-way process whereby we respect each other's independence but at the end of the day we both work for the good of the child and young person.

What WarrPAC bring to the table is that they as parents have been on a very long journey and are still on the journey. They bring years of experience (good and bad) and they are there to support you. They have probably been in that place that you find yourself in at the moment!!

They also provide that important link with the local authority whereby they are influential voices and are listened to whether it be around support or provision provided by the local authority. So if you want your voice to be heard why don't you contact them for advice and they will take your concerns and views forward.

Iain Macdonald
SENDIASS Coordinator
